

Hailey CE Primary School Case Study

Established in 1847, Hailey Church of England Primary School had a growing number of pupils and needed to upgrade their student's personal storage.

Students needed somewhere to store their P.E. and swimming bags, which Atlas Steel Lockers had ample room for whilst providing a secure storage option.

Due to the fast delivery option of the Atlas Lockers, they were surveyed, delivered and installed all within 2 weeks - just in time for the holidays.

“The design & survey service were excellent; the lockers were well explained and there were descriptive plans on where to locate the lockers on site” - Debbie Davies, Head Teacher
