

# Stanton School Case Study

Located in Milton Keynes, Stanton School were struggling to provide coat pegs as their student numbers grew. After receiving a sample, the school opted for Atlas Lockers.

In addition, optional sloping tops were installed to keep the lockers clear and tidy.

Stanton School was delighted with the results as they now had plenty room for all their student's belongings, whilst being easy to find and access so they spent less time in the corridors and more in the classroom.

**“Working with Action Storage was smooth from the outset. I was very comfortable working with the team and the delivery team even helped to move the lockers upstairs, ever so helpful” - Pete Lindsey, Project Manager**
