

## SUCCESS STORIES - KEYS FAMILY DAY SCHOOL

Keys Family Day School searched high and low to find a quality locker durable enough to be placed outside in the intense California sunshine before discovering the eXtreme Plastic Locker.

Action Storage shipped 120 x 600mm high lockers with sloping tops, which were installed by the school in semi sheltered locations.

The school were simply ecstatic about the lockers.

*We researched every plastic locker available in the U.S. and we found that eXtreme lockers fit our needs hands down. Our lockers are out in the elements here in CA. They are exposed to direct sunlight, rain and a variety of temps. Sturdy construction, great looks, graffiti proof and easy to clean. Love love love them.*
