

## SUCCESS STORIES - WOODMANCOTE PRIMARY SCHOOL

This large primary school was having renovation work completed and wanted to use the time to install lockers into some of the classrooms.

Action Storage installed 48 x 4 door Atlas lockers (450mm deep) with white number plates & swivel catches; 8 banks of lockers in 6 different classrooms.

A member of our specialist sales team surveyed the school, advised on product type and lock options and completed the installation during the summer holidays whilst the building work was being completed.

*The customer service was great, well explained & very detailed. The installation team was brilliant - no hassle.*

*No other supplier went to these lengths.*

### Headteacher's thoughts

Locker quality: ★★★★★
